

**Kansas Radon Program**

# KDHE Radon Update

**New URL: <https://www.kdhe.ks.gov/1061/Kansas-Radon>**

The screenshot shows a web page layout for the Kansas Radon Program. On the left is a navigation panel with a 'KDHE Home' link and a 'Radon Professionals' section containing a '+', and a 'Locate a Kansas Certified Radon Professional Near You' link. The main content area has a breadcrumb trail: 'Home > Programs & Services > Division of Public Health > Community Health Systems > Radiation & Right-To-Know > Kansas Radon'. Below this is the 'Kansas Radon' heading, followed by a paragraph explaining radon as a naturally occurring radioactive gas that causes lung cancer and is not visible or smellable, with testing as the only way to know exposure. A 'Helpful Documents' section lists three PDF links: 'Application for Certification or Renewal (PDF)', 'List of Kansas-Certified Radon Laboratories (PDF)', and 'List of Kansas-Certified Radon Measurement and Mitigation Technicians (PDF)'. A 'Radon Professionals' section states that in Kansas, a current certificate is required for radon testing or mitigation work, and provides information for radon contractors and testing laboratories. At the bottom of the main content is another 'Locate a Kansas Certified Radon Professional Near You' link. On the right side of the page, there is a 'Contact Us' section with a 'Select Language' dropdown, a link to 'Email the Kansas Radon Program', and a 'Directory' link. Below the directory link is an image of a house with radon gas bubbles rising from the ground, with the word 'RADON' written in large letters below the house. Underneath the image is the text 'Kansas Radon Program'.

- **Main landing page tailored for citizens**
- **Can access certification resources from left hand navigation panel**

## KDHE Adopting AARST Measurement and Mitigation Standards

- **Single Family Measurement and Mitigation**
  - ANSI/AARST MAH-2019
  - ANSI/AARST SGM-SF-2017 with 12/2020 REVISIONS
- **Multifamily Measurement and Mitigation**
  - ANSI/AARST MAMF-2017 with 1/2021 REVISIONS
  - ANSI/AARST RMS-MF-2018 with 12/2020 REVISIONS
- **School and Large Building Measurement and Mitigation**
  - ANSI/AARST MALB-2014 with 1/2021 REVISIONS
  - ANSI/AARST RMS-LB-2018 with 12/2020 REVISIONS
- **View Online:** <https://standards.aarst.org/>
